New partners
As a machine builder we know our customers’ requirements and know what is important.

In the ADAMOS App Factory we bring industry knowledge for intuitively operated applications together with the design of digital marketplaces.

Ralf W. Dieter,
Chief Executive Officer Dürr AG
Software AG’s technology leadership and digital expertise is based on a total investment of more than one billion euros.

Our industry neutrality and global presence combined with the know-how of leading machine and plant builders worldwide form the foundation of ADAMOS.

Karl-Heinz Streibich,
Chief Executive Officer Software AG
Together we are developing technologies for the factory of the future.

Companies that use the IIoT applications from ADAMOS, will be making use of innovative services and thus increase the efficiency, transparency, reliability and availability of their systems significantly.

Thomas Spitzenpfeil, Member of the Executive Board Carl Zeiss AG
ADAMOS at EMO, Hall 2
DMG MORI, Dürr, Software AG, ZEISS and ASM are joining forces in ADAMOS for Industry 4.0 and are open to further partners.

Every partner represents their digital competencies through their own marketplaces to their customers.

The ADAMOS App Factory bundles the technological know-how from the partner enterprises.

The ADAMOS IIoT-platform is vendor-independent and combines leading edge IIoT technologies with leading industry knowledge from its partners.

ADAMOS GmbH and ADAMOS App Factory will launch starting October 1, 2017 with about 200 experts, 5 digital market places from 5 partners and with more than 30 apps.
